

McLane Kitchen's newest proprietary hot foods program, Central Eats, will boost sales and keep customers coming back for more.

High-quality breakfast, lunch, and dinner items come pre-packaged and ready for your custom label, or you can utilize the vibrant Central Eats brand developed exclusively for this program. Either way, you will be able to create a unique offering with minimal purchase commitment or commissary relationship required.

Simply order products from McLane, affix labels to the top of each product, and display for sale as refrigerated or heated and ready-to-eat. The program is great for retailers that have warmers, microwaves, and open air coolers for product display.

Through the Central Eats program, you will have access to:

- Products using high-quality ingredients assembled and packaged with a shelf life of 6 months in the freezer and 14 days in the refrigerator
- Ordering, usage, and preparation tools
- Label design assistance
- Equipment and merchandising ideas
- Phase 1 includes 9 unique menu items. Look forward to expanded offerings in phases 2 and 3.
