PREMIER™
MANUFACTURING, INC

A USTC COMPANY

July 23, 2026

Dear McLane Athens,

As you are aware, we are experiencing an issue where some Traffic Red 100's that were manufactured improperly and contain menthol flavoring.

We determined that the affected merchandise was shipped to the following distribution centers that service Circle K convenience store locations - CST Diamond San Antonio, TX, Circle K Distribution Tolleson, AZ and McLane Southeast Athens. Our sales team is contacting your distribution center to ensure the affected product is removed from inventory prior to shipment to any additional Circle K store locations that you service.

The Traffic Red 100 cigarettes in your distribution center with the following production codes of CO 677, CO 561 or CO 683 should be removed immediately from inventory and placed in the damage / return area for return to Premier Manufacturing, which will issue full credit for all affected merchandise to the distributor.

Your assistance is appreciated.

Kind Regards,

Premier Manufacturing, Inc.
